Caller ID Blocking and Automatic Number Identification

Caller ID Blocking - You can prevent the display of your telephone number on a Caller ID phone with these options:

* Per-Call Blocking - To block your number on a per call basis, press *67 before making a call (1167 on a rotary phone). There is no charge for this using this option.

* Line Blocking - You may order per line blocking in states where available to block your number on all outgoing calls. You can press *82 before a call to allow your number to display on that call (1182 on a rotary phone).

Automatic Number Identification - When you call 911, or dial 800, 888, 877, 855, 866 and other toll free numbers, the party you call can identify your telephone number using a network technology called Automatic Number Identification (ANI). Caller ID blocking may not prevent the people who answer such calls from seeing your phone number and name. FCC rules, however, prevent parties that are assigned toll free numbers from reusing or selling the telephone numbers identified through ANI without the subscriber's consent.

You Can Block Third Party Billing to Your Verizon Bill

For more information, visit verizon.com/blocking or call us at the number listed on your bill.

For Your Information

Pay By Phone Service

Pay By Phone service is optional and provided by a third party vendor for a fee. This service is not provided by Verizon and Verizon does not impose the fee. Verizon only collects the charges on your bill.

Previous Payment

If you sent a payment that we did not receive in time to be reflected on this bill, please deduct that amount before sending payment. To check whether your payment has been received, call the Payment Questions number above.

Returned Payment

If your payment is returned for any reason, Verizon will resubmit it electronically. A charge may apply for each payment returned.

Late Payment Charges

To avoid a late payment charge, full payment must be received by the due date shown on page 1. For TV, data and wireless services, the late payment charge is 1.5% or \$10, whichever is greater. For all other services, the late payment charge is 1.5%.

Tax & Fees

Federal Subscriber Line Charge funds part of the cost of providing long distance companies access to local telephone networks. It is applied per line.

Federal Universal Service Fee helps keep telephone service affordable for high cost areas, rural health-care providers, and library internet access.

911 Charge funds your community's 911 system. This fee is sent to your state/county treasury.

Important Information Regarding Your Long Distance Service Agreement

In follow up to last year's merger of Verizon Enterprise Solutions LLC into Verizon Long Distance LLC, we have updated your Service Agreement and consolidated the Product Guides that are also a part of your Service Agreement. The introductory paragraphs about the history and dates of de-tariffing have been removed from the Service Agreement. Other changes include the addition of certain provisions already contained in the Product Guide, such as the terms requiring the resolution of any claims or disputes solely by arbitration or small claims court. You can view the current version of your Agreement at www.verizon.com/longdistanceserviceagreement

This Service Agreement covers long distance services provided by Verizon Long Distance as well as de-tariffed regional toll services provided by your local Verizon company. By using or paying for these calling services, you are agreeing to the terms of the Service Agreement, including the Product Guides. Please review these important terms. If you are unable to access the Service Agreement on line, please call 1-800-VERIZON for assistance.

For Your Information

Pay By Phone Service

Pay By Phone service is optional and provided by a third party vendor for a fee. This service is not provided by Verizon and Verizon does not impose the fee. Verizon only collects the charges on your bill.

Previous Payment

If you sent a payment that we did not receive in time to be reflected on this bill, please deduct that amount before sending payment. To check whether your payment has been received, call the Payment Questions number above.

Returned Payment

If your payment is returned for any reason, Verizon will resubmit it electronically. A charge may apply for each payment returned.

Late Payment Charges

To avoid a late payment charge, full payment must be received by the due date shown on page 1. For TV, data and wireless services, the late payment charge is 1.5% or \$10, whichever is greater. For all other services, the late payment charge is 1.5%.

Tax & Fees

Federal Subscriber Line Charge funds part of the cost of providing long distance companies access to local telephone networks. It is applied per line.

Federal Universal Service Fee helps keep telephone service affordable for high cost areas, rural health-care providers, and library internet access.

911 Charge funds your community's 911 system. This fee is sent to your state/county treasury.

The Federal Communications Commission (FCC) authorizes Subscriber Line Charge and Universal Service Fee

For Your Information

Pay By Phone Service

Pay By Phone service is optional and provided by a third party vendor for a fee. This service is not provided by Verizon and Verizon does not impose the fee. Verizon only collects the charges on your bill.

Previous Payment

If you sent a payment that we did not receive in time to be reflected on this bill, please deduct that amount before sending payment. To check whether your payment has been received, call the Payment Questions number above.

Returned Payment

If your payment is returned for any reason, Verizon will resubmit it electronically. A charge may apply for each payment returned.

Late Payment Charges

To avoid a late payment charge, full payment must be received by the due date shown on page 1. For TV, data and wireless services, the late payment charge is 1.5% or \$10, whichever is greater. For all other services, the late payment charge is 1.5%.

Tax & Fees

Federal Subscriber Line Charge funds part of the cost of providing long distance companies access to local telephone networks. It is applied per line.

Federal Universal Service Fee helps keep telephone service affordable for high cost areas, rural health-care providers, and library internet access.

911 Charge funds your community's 911 system. This fee is sent to your state/county treasury.

The Federal Communications Commission (FCC) authorizes Subscriber Line Charge and Universal Service Fee.

Important Information Regarding Telecommunications Relay Service (TRS)

TRS provides an operator to telephone users who use text telephones (TTY) or web capable devices (WCD) because they are deaf, hard of hearing, or speech disabled. From payphones, TRS local calls are free; toll calls must be billed to calling cards, prepaid cards (PPC), collect or third party billing. PPC information is available online at fcc.gov/consumers/guides/prepaid-phone-cards-what-consumers-should-know.

TRS is provided 24 hours a day, 365 days per year with no time limits. For further information call your state TRS Provider, visit the FCC's TRS web site at fcc.gov/general/telecommunications-relay-services-trs, or read the explanation available in telephone books. Available TRS methods are explained below.

To call a TTY user, dial TRS at 711. A Communications Assistant (CA) will place your

call and type your spoken words for the TTY user. The CA will read to you the messages the TTY user sends you. Calls are private, confidential and uncensored. While there is no charge to TRS users for TTY, regular phone charges do apply.

Speech-to-Speech Service (STS) is another form of TRS available by calling 711. The CA can assume an active or passive role in repeating the conversation and follows the same guidelines as with TTY calls.

IP Relay Service is a form of TRS which relays calls from a WCD. A CA follows the TTY call guidelines. To use IP Relay:

- * connect a WCD to an Internet Service Provider
- * type in your TRS IP Internet address
- * enter your 10 digit presubscribed number
- * select your preferred relay operator's icon

Video Relay Service (VRS) relays calls for those using sign language. VRS information is available at fcc.gov/consumers/guides/video-relay-services. Some TRS providers offer Captioned Telephone Service (CTS) which is accessed with a captioned telephone and available for persons with some residual hearing.

Discontinuance of Certain Services

Subject to applicable regulatory approvals, on or after July 8, 2016, your Verizon local exchange company*, Verizon Long Distance LLC and Verizon Select Services Inc. (collectively "Verizon") will no longer offer domestic or international Person-to-Person, 3rd Number Billing, or Collect Call operator services anywhere in the United States or elsewhere. The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the section 63.71 Application of Verizon. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

For Your Information

We may use and share your CPNI among our affiliates and agents to offer you services that are different from the services you currently purchase from us. Verizon offers a full range of services such as video, wireless, Internet, and long distance. Visit verizon.com for a complete listing of our services and companies.

For residential, small and medium business customers, you may choose not to have your CPNI used for marketing purposes described above by calling us anytime at 1-866-483-9700. When you call, please have your bill and account number available. Your decision about use of your CPNI doesn't affect our provision of services to you nor eliminate all Verizon marketing contacts.
